

StrikePlagiarism.com and Moodle

Admin`s manual

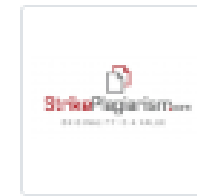

Moodle integration is rooted based on a plugin that is available in the plugin registry. StrikePlagiarism supports all the latest versions of the Moodle.

Follow the link:

https://moodle.org/plugins/plagiarism_strike

In order for the integration to be successful, you need to select the required version of the plugin and contact us to obtain an API key.

1. Login into your University account

The image shows the Moodle login page for the site pmo361.plagiat.pl. It features a login form with a username field containing the text 'Test', a password field with masked characters, and a 'Remember username' checkbox. A blue 'Log in' button is positioned below the form. To the right of the form, there are links for 'Forgotten your username or password?' and a message stating 'Cookies must be enabled in your browser' with a help icon. Below this, it says 'Some courses may allow guest access' and a grey 'Log in as a guest' button.

2. Then you will see the main page and in the menu you need to find “Site Administration”, click on it

The image shows the Moodle dashboard for the site pmo361. On the left, there is a navigation menu with the following items: 'Dashboard' (highlighted in blue), 'Site home', 'Calendar', 'Private files', and 'Site administration' (with a mouse cursor pointing to it). On the right, there is a section titled 'Recently accessed courses' which is currently empty. The top of the dashboard shows the site name 'pmo361' and a hamburger menu icon.

3. Find “Plugins” and click on it

4. At “Plugins “ click “Plugins overview” to check if you have plugin stikeplagiarism.

Search for: StrikePlagiarism.com

PLUGIN INSTALLATION GUIDE

In this list of advanced features, find enable plagiarism detection.

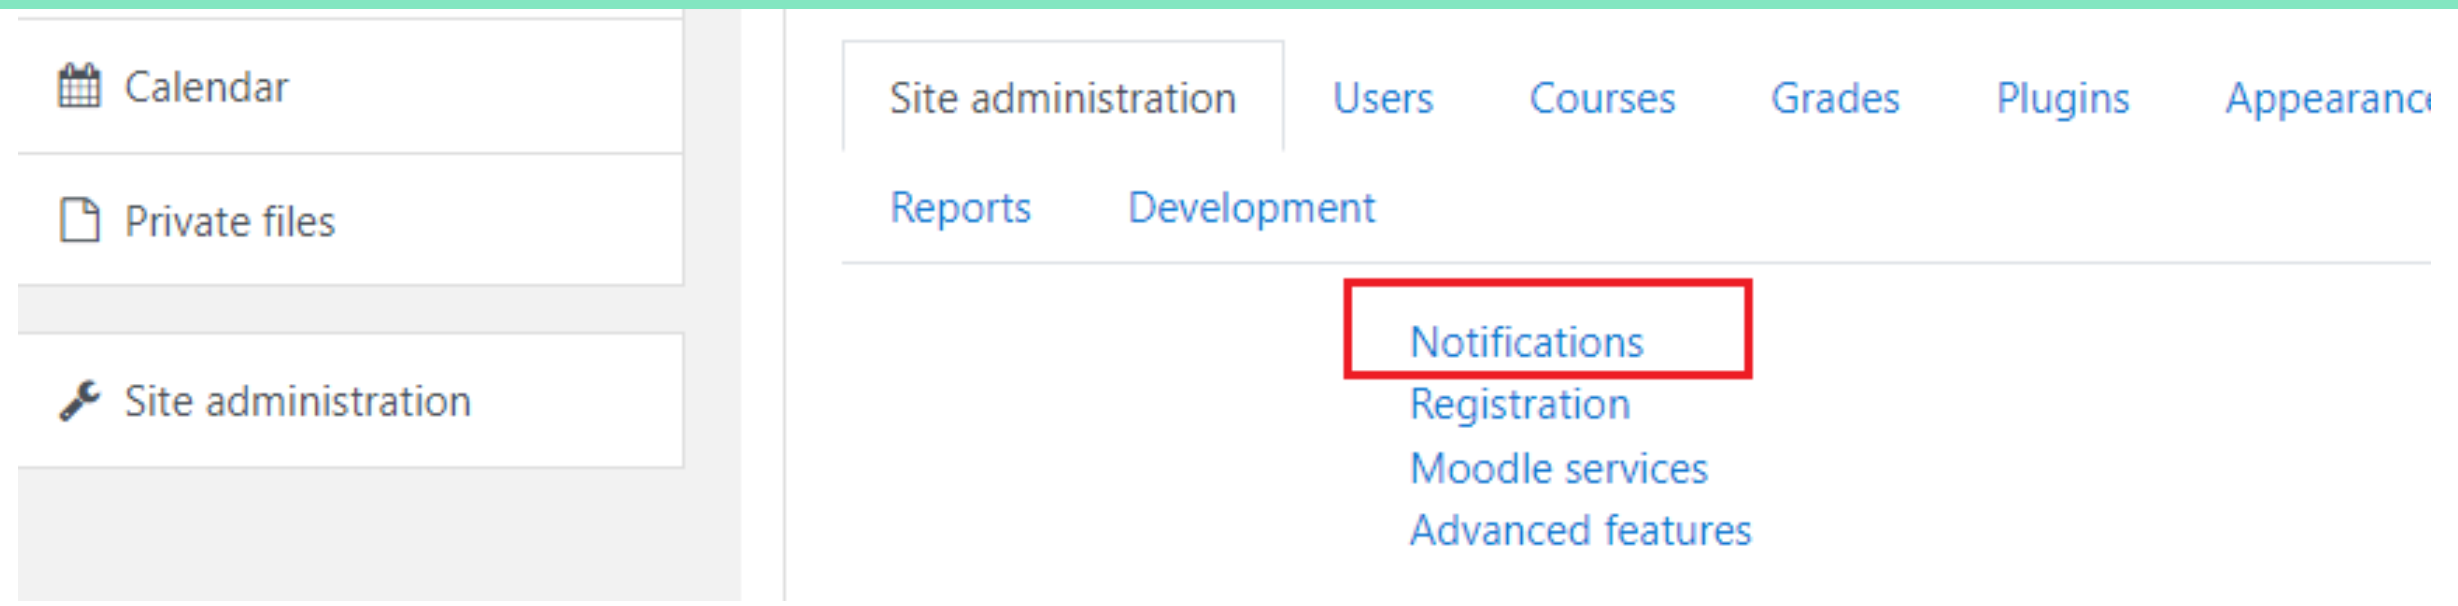

Enable plagiarism plugins
enableplagiarism

Default: No

This will allow administrators to configure plagiarism plugins (if installed)

Copy the plugin from moodle \ plagiarism \ strike to <your moodle> / plagiarism
The system will automatically prompt you to install a new plugin or go to Administration - Notifications.

You can access the Moodle configuration page “Strike Plagiarism Checker” using Administration-> Plugins-> Prevention of Plagiarism

You can find the “Yes / No” “Strike plagiarism plugin” on the job creation / update page. Thus, you can disable it for different tasks inside the course.

The screenshot shows the Moodle Administration interface. On the left is a sidebar menu with items: Dashboard, Site home, Calendar, Private files, and Site administration. The main content area has a search bar and a breadcrumb trail: Site administration > Users > Courses > Grades > Plugins > AI. Below this, there are links for 'Install plugins' and 'Plugins overview'. A section titled 'Plagiarism' contains links for 'Manage plagiarism plugins' and 'StrikePlagiarism.com'. An orange arrow points from the 'StrikePlagiarism.com' link towards the right.

StrikePlagiarism.com plugin

The screenshot shows the configuration settings for the StrikePlagiarism.com plugin. The settings are as follows:
