Active lists of similarities

Scroll the list and analyze especially the fragments that exceed the SC 2 (marked in bold). Use the link "Mark fragment" and see if they are short phrases scattered in the document (coincidental similarities), numerous short phrases near each other (mosaic plagiarism) or extensive fragments without indicating the source (direct plagiarism).

Within academia, plagiarism by students, professors, or researchers is considered academic dishonesty or academic fraud, and offenders are subject to academic censure, up to and including expulsion. Some institutions use plagiarism detection software to uncover potential plagiarism and to deter students from plagiarizing. Some universities address the issue of academic integrity by providing students with thorough orientations, toyota required writing courses, and clearly articulated honor codes. Indeed, there is a virtually uniform understanding among college students that plagiarism is wrong. "Nevertheless, each year students are brought to their institutions' disciplinary boards on charges that they have misused sources   and try to cheat in their schoolwork."[23]
  However, the practice of plagiarizing by use of sufficient word substitutions to exclude detection software, known as rogeting, has rapidly evolved as students and unethical academics seek to stay ahead of detection software.[24]

Despite phenomenon of plagiarism is very sensitive in academic society, there is no much done to move forward with academic integrity in many countries. The reasons are various: lack of legislation and regulations, poor practices implemented etc. Within last few years the plagiarism scandals became loudly discussed both among politicians and academic community.
" An extreme form of plagiarism, known as contract cheating involves students paying someone else, The mai·n tools that all LMSs prov·ide are: -
